### Statement

I am a photographer, artist and performer whom has been pro-active in the arts since graduating in 2002, founding member of the NOPARKING Collective of Artists.

As an artist I research the spaces that surround us, moments in passing and spaces that affect our day-to-day existence. My interests mainly cover themes within the nocturnal city as well as marginal and internal parts of the urban landscape. I am currently undertaking painting and scratching techniques within my works.

### Education

1999 – 2002 UNIVERSITY OF DERBY
